Siam University Announcement
PhD Scholarships in Information Technology in Business

In accordance with the Strategic Plan of Siam University in improving the quality of education and providing support for research studies that aim to produce high-quality graduates to serve the society, it is advisable to offer ten (Full and/or Partial) scholarships in the Doctoral of Philosophy in Information Technology in Business program to high competent individuals who demand to further their study at PhD level education.

The curriculum of the PhD program in Information Technology in business is designed in collaboration with the School of Information Sciences, University of Pittsburgh, USA. All coursework is carried out under the supervision and guidance of faculty members from the University of Pittsburgh, Siam University and many other world class universities. This is a research degree with a strong emphasis on the production of a dissertation leading to research publication in international journals that encompass both information technology and business areas.
